## The power of a legacy—to impact generations to come

---

Growing up in New Zealand, Murray Kendon became a Christian when he was 16 years old. He soon had a passion to share the truth of life in Christ and became a dedicated speaker. When war loomed heavy on the horizon, Murray was called up to train as a pilot.

He later wrote down his thoughts: “How come thousands of planes can be found to kill and destroy, and only a handful to spread God’s amazing offer of free forgiveness and eternal life in glory?”

Out of this vision God birthed Mission Aviation Fellowship.

Almost 70 years after he fanned the dream of MAF into reality, the founder of Mission Aviation Fellowship took his earthly rest.

*But the wonderful thing about Murray’s story is that it doesn’t end there. Murray left a legacy that continues long after he himself moved on. Each day literally thousands of lives are impacted and changed.*

**Today, one in ten MAF flights worldwide are made possible by gifts in Wills.**

Legacies left in Wills are a very important part of keeping MAF flying. We are so grateful to all those who choose to remember MAF in this special way. Large or small, each gift is valuable and will help change lives for the better.

# ...beyond Your Lifetime

## Why prepare a Will?

Everyone over the age of 18 should have a Will and keep it updated with any change of circumstances (e.g. marriage or children). A Will is easy to prepare and ensures that the people and things that matter most to you are taken care of if something happens to you. A Will sets out your wishes so nothing is left to chance. Importantly, you can also name guardians to look after your children.

## What happens if you don't have a Will?

If you die without a Will your loved ones won't know what your intentions are. The law will determine how your estate is divided and how your loved ones are looked after—this could be very different to what you want.
